Age groups are determined by the participant's age at the date of the event. In addition, the age groups are classified based on the average age of the four RELAY participants at the time of the event. E.g. RELAY Member (RM) 1 is 24 years old, RM 2 is 38, RM 3 is 48 and RM 4 is 40, the average age is 37.5, the RELAY Team will be classified into age group (a).

3.2 Ranking System

Our ranking system and the resulting overall ranking is based on the fastest time in the respective division of each event. Results are sorted from the fastest to the slowest time. In addition, there will be a ranking within the age groups, also sorted from the fastest to the slowest time. The results will be published immediately after the event ends and available at [hyrox.com](https://www.hyrox.com).

Penalties, etc. may be added up to 48 hours after the event ends. Any incomplete running laps or improperly executed repetition or deviation from the prescribed standard of movements is considered invalid and leads to a penalty (see penalties).

4. EUROPEAN/US CHAMPIONSHIPS AND ELITE 15

4.1 Participation EUROPEAN/US CHAMPIONSHIPS

One of the highlight of the HYROX season are the EUROPEAN and US CHAMPIONSHIPS in the respective regions (following referred to as EU/US). These are open championships and anyone can sign up for any division. No qualification is required. The EU/US CHAMPIONSHIPS are

open to all nationalities, i.e. there are no restrictions on citizenship or place of residence.

4. DOUBLES MEN
5. DOUBLES MIXED
6. TEAM RELAY WOMEN
7. TEAM RELAY MIXED
8. TEAM RELAY MEN
9. ADAPTIVE (TBD)

4.3 Divisions and Age Groups

All participants have to complete the corresponding weights, repetitions and distances of their division.

All participants start in their division and age group (AG) to determine the EU/US Champion of the respective AG. The classification of the AG's is based on the known principle.

AG Winners cannot become *Overall* EU/US Champion - EU/US Champion of Fitness Racing - and will not receive any prize money.

4.4 ELITE 15 und Prize Money

The Elite 15 is a separate start wave that consists of the top 15 athletes of the pro division (WOMEN PRO and MEN PRO) that achieved the fastest qualifying times of the current season leading up to the EU/US Championships. A so-called cut off event for the final qualification will be determined by HYROX and communicated with all athletes involved. Qualification is only possible within pro division with a correspondingly fast finish time.

Only athletes of this Elite 15 Wave have the opportunity to become EU/US Overall Champion - European/US/US Champion of Fitness Racing- and win the prize money. In addition, podium positions 1st, 2nd and 3rd (M/F) will secure the athlete a spot in the ELITE 15 of the World Championships.

Elite 15 Athletes are excluded from the AG ranking and therefore cannot become AG Winner. The prize money will be announced in the Athlete's Guide.

5. THE COMPETITION

HYROX TEAM RELAY is a 4-person-team competition. The RELAY Team can consist of 4 male athletes, 4 female athletes or 2 female and 2 male athletes.

The competition consists of a 1 k run followed by one workout, repeated 8 times. In order to complete the entire HYROX TEAM RELAY Race and receive a valid finishing time, the participants must complete the runs and workouts in the designated order (run, workout 1, run, workout 2, etc.) until they have completed a total of 8 k running and 8 workouts as a team.

Each RELAY Member (RM) has to run 2x 1 k and perform 2 workout stations. The use of each RM is entirely up to the team. However, the relay always starts with 1 k of running followed by the workout station.

This means one RM can either perform 2x 1 k runs and 2 workout stations consecutively or can come back into the relay at another point.

5.1 Workout Stations

The Team must complete 8 workout stations in total in the designated order 1-8. Each RM has to complete 2 workout stations. A workout station is completed when the entire distance or repetitions are covered.

5.2 Workout Rules and Regulations

- Complete all workouts, in the correct order.
- Perform each exercise according to the movement standards.
- Use the correct start and finish points of the workout-station.
- Complete the correct number of repetitions and/or distances.
- Perform the exercises/movements with the correct weight in kilogram.

5.3 Running

The Team must complete 8 k of running in total. Each RM has to run 2 ks.

The running distance is always 1000 m, and depending on the venue it this will be split into 2-4 running laps. In some cases the first running lap might not be entirely 1000 m due to a staggered start. In this case the missing meters will be balanced out during the last lap (right before the Wall Ball station).

On the running track there is a mark, which, similar to highways, is dividing the track into two speed areas: fast lane, and regular speed. Faster athletes should run on the (marked) fast lane and slower athletes on the regular speed lane.

5.4 Transition Zone

The Transition Zone (TZ) is where the RM exchange takes place. Up until the actual exchange, only one RM is allowed in this zone per RELAY Team. The RM who is up next is only allowed to enter shortly before the

exchange. No loitering is allowed in this zone. It is the responsibility of each RELAY Team to make sure their RTMs get into the TZ on time. Once a RM has finished his/her workout station, they must run into the TZ to meet with the RM who is up next.

IMPORTANT: If a RM performs 2 runs and workouts back to back, they need to run through the TZ after each workout due to timing chip reasons.

The exchange must follow this protocol:

RM 1 finished the workout and enters the TZ. He/she then taps RM 2 on the shoulder. This is the signal for RM 1 to leave the TZ as fast as possible.

Only after RM 1 entered the TZ and performs the shoulder tap, RM 2 is allowed to leave the TZ and start the run. This is the only time that 2 RM's of the same team are allowed to be in the TZ.

The TZ is located inside the Roxzone and can be entered from the spectator area by passing the crossing point. The exact location of this zone will be posted on site and will be marked in the venue map.

5.5 Referees and Head Judges

For each workout a referee will be responsible for ensuring all participants complete the workout in the correct and safe manner. The referee does this in coordination with the head judge of the workout station. The head judge of each station is overseen by the race director, who oversees all sporting aspects of the competition and holds final say on all judging matters.

All decisions of the referee, head judge, race director and event organizers are final.
